PROJECTS

Water Management System
React.js, Supabase
- Designed UI architecture
- Developed responsive frontend
- Integrated backend for real-time data

Garage Management System
React Native, Supabase
- Designed mobile UI
- Developed frontend architecture
- Integrated authentication and database

Well Academy App
- Designed complete UI/UX structure
- Created user flows and layout systems

SUMMARY

Creative UI/UX Designer and Frontend Developer with a proven track record in delivering intuitive and user-centered designs, enhancing user experiences across various platforms.

EXPERIENCE

UI/UX Designer Intern
Solution Sqaures
Nanpura , Surat , Gujarat , INDIA
01 -Jan. 2026 - Present
- Designed user-centered web and mobile interfaces using Figma, focusing on usability and clean visual hierarchy.
- Created wireframes, high-fidelity prototypes, and user flows for multiple client projects.
- Developed consistent design systems including typography, spacing, and component guidelines.
- Collaborated closely with frontend developers to ensure accurate implementation of UI designs.
- Conducted usability testing sessions and gathered feedback to improve user experience and interface clarity.
- Improved interface structure and navigation flow to enhance overall user interaction and accessibility.

Frontend Developer Intern
Solution Sqaures
Nanpura , Surat , Gujarat , INDIA
01-Aug-2025 - 31-Dec-2025
- Developed responsive and reusable UI components using React.js and Tailwind CSS.
- Integrated frontend applications with Supabase backend services for real-time data handling.
- Implemented authentication flows and structured API integrations.
- Optimized component rendering and improved overall UI performance.
- Ensured cross-browser compatibility and mobile responsiveness.
- Collaborated with backend and design teams to deliver scalable SaaS-based solutions.
- Built modular and maintainable frontend architecture for scalable web applications.
- Managed state and dynamic data rendering for real-time user dashboards.
- Improved UI responsiveness and structured data flow between frontend and backend systems
